

"TAILPIPE" TEST DATA REPORTS:

.
 "TAILPIPE" TEST DATA REPORTS are a series of similar reports to support DNREC's measurement of emission testing activity and the success of the program. The reports reflect basic statistics about the testing program for January through December of the selected reporting year.

.
 The number of vehicles tested for each test type (emissions, emission control components, tank pressure test, cap pressure test) are computed for Test-No "01", "02", "03", "More than 3 tests" (the report "rows").

.
 For each Test Type/Test-No, the number of vehicles that Passed/Failed/Bypassed/received Waiver is detailed in the report "columns". An additional column (right-most) titled "UNKNOWN RESULTS", lists the number of vehicles whose final outcome is not known (that is, it did not have a Passing emission result nor a Waiver within 90 days of the last I-R record). A list of "Unknown Results" vehicles is created (EXTRACTOR pgm. R45DNL07) to assist in DNREC follow-up for these vehicles".

.
 Additionally (to count of vehicles in each column), the Passing, Failing(Bypassed), Unknown Rate will be listed (computed by dividing each total by total # of vehicles tested (the Row Total). "OBD OVER" column (new-2002) added to list # of OBD-II-Candidate vehicles that had OBD test Overridden...reverting to "tailpipe" test. Inspection records are selected from INSPECTION-RESULTS file based on the following criteria:

--Emission-Category-Code of "K"->"Q", "S", "T" (i.e., emission-testable), and "B" (partially exempt-mod.yr.).
 --DNREC-Report-Year = selected reporting year (a VIN's I-R records can only be reported once every other year)
 --EMISSION-R, ECS-R, P-CAP-R, P-TANK-R = "P"ass,"F"ail, "B"ypass (and Test 01 only, "O"ther,"N"ot applicable).
 --Exclude Transferred and Record-Type "P" records.
 --If final outcome for a VIN is NOT "P"assed, then look for a record on the DMV-DOWNTIME-INSPECT-RESULTS-LOG file (see below).

DMV-DOWNTIME-INSPECT-RESULTS-LOG file search criteria:
 -->if record is NOT FOUND on this file for same VIN in the same inspection cycle, then look for a record on the DMV-WAIVER-SUMMARY file (see below).

-->if record is found on this file for same VIN in same inspection cycle (DOWNTIME-RECORD-STATUS must be "U"):
 ---->>If "P"assing, count this result in "VEHICLES PASSING", if "F"ailing, count this result in "VEHICLES FAILING", then look for a record on the DMV-WAIVER-SUMMARY FILE (see below).
 -->***NOTE** some vehicles may not have I-R record, just

a Downtime record. Extractor will p/u Downtime records within report period (if Title's Emission-Category-Code is "K", "L", "M", "N", "O", "P", "Q", "B").

.
DMV-WAIVER-SUMMARY file search criteria:

-->if record is NOT FOUND on this file for same VIN in the same inspection cycle, then count in "UNKNOWN RESULTS" and list this vehicle on UNKNOWN RESULTS List.
-->if record is found on this file for same VIN in the same inspection cycle (RECORD-ID must be "W"), then count in "# WAIVERS ISSUED".

.
The reports are tallied as follows:

- o Detail by Facility, Lane, Model Year, EPA Class
- o Detail by Facility, Model Year, EPA Class
- o Detail by Facility, Model Year, EPA Class (new-2002)
- o Detail by Model Year, EPA Class
- o Summary (Emission test) by EPA Class
- o Summary (ECS test) by EPA Class (new-2002)
- o Summary (Cap test) by EPA Class (new-2002)
- o Summary (Tank test) by EPA Class (new-2002)
- o Summary by Model Year, EPA Class
- o Totals by Model Year and EPA Class

.
.
.
Special Notes to Remember

- o Some Test Data counts may seem low compared to same year's Enforcement Report...please remember that the Test Data reports only allow reporting a vehicle's tests every other year. Thus, a vehicle that appears on the Enforcement Report may be excluded on the Test Data reports due to having been reported the prior year.

- o Some Test Data counts may be lower than corresponding reports. For example, the 2000 Waiver Report totals 183 waivers, whereas the Test Data reports only show 159 waivers due to 24 vehicles have been reported on the 1999 Test Data reports, so are precluded from being counted on the 2000 Test Data reports.

- o Starting for year 2000, counts of Clean-Screened vehicles are added to the reports. These counts are reflected in the same column as for Waivers Issued. The counts are added (along with Passing / Failing counts) to the left-most column: Total Vehicle Tests.

- o Remember...if a vehicle enters a 2nd, etc. inspection cycle, we will only report on the initial inspection cycle.
